8. WiFi Adapter - Installation Guide for Ubuntu

8.1 Connect to a Computer

Option 1 : Directly

Insert the adapter into a USB port on your computer directly.

Option 2: Via the USB Extension Cable

Connect the adapter and your computer with the provided USB extension cable.

8.2 Install Driver and Utility

8.2.1 Download the driver through this link <u>http://software.gov.lk/ubuntu/master.zip</u> (Can access only within LGN)

8.2.2 Extract the Downloaded Folder

8.2.3 Login as super user and enter the root password

8.2.4 Go to inside the extracted directory through terminal cd <path to extracted directory>

root@ewis-ewispro2700:/home/ewis# cd /home/ewis/Downloads/rtl8812AU_8821AU_linux-master

8.2.5 Now type following commands make

ewis@ewis-ewispro2700:~/Downloads/rtl8812AU_8821AU_linux-master\$ make

sudo make install

ewis@ewis-ewispro2700:~/Downloads/rtl8812AU_8821AU_linux-master\$ sudo make install

modprobe rtl8812au

ewis@ewis-ewispro2700:~/Downloads/rtl8812AU_B821AU_linux-master\$ modprobe rt18812au

8.3 Join a Wireless Network

8.3.1 After the successfully installation , click the Network icon appears on the desktop and click on the Wi-Fi network "LGN_Wi-Fi"

8.3.2 You are prompted the successful connection as " Connection Established"

8.3.3 Open the browser , type the IP address 10.200.0.12 and enter. Next provide your username and password and click on the submit button
