May 30, 2016

ADDENDUM NO 01 - TO THE BIDDING DOCUMENT

Volume 01 of 03

Having reviewed the requests made by the prospective bidders, Employer has decided to revise the weightage assigned to the evaluated Bid Price (“X” in the formula for Evaluated Bid Score) to 20%.

Accordingly, amended “Section 3.1.5 – Financial Evaluation and Ranking of Bids” of the Section III of Bidding Document - Volume 01 of 03 – “EVALUATION AND QUALIFICATION CRITERIA” shall be as follows.

Quote:

3.1.5 Financial Evaluation and Ranking of Bids

The Evaluated Bid Price (Adjusted Bid Price plus the Recurrent Costs) will be identified by the Employer pursuant to ITB Clause 42 based on the following criteria:

Adjusted bid price shall be calculated as follows.

- (a) Price of IT Products and Services Provided and Installed
- (b) Price of Support Services
- (c) Non material non-conformities
- (d) Recurrent Costs
- (e) Adjustments made for:
 - (i) Products/Services omitted
 - (ii) Arithmetic corrections
 - (iii) Conversions to a single currency
 - (iv) Net Present Value of Recurrent Costs

The Price Schedules, in which the above information must be presented, are given in Section IV- Bidding Forms.

The Employer's evaluation of responsive bids will take into account technical factors, in addition to cost factors. An Evaluated Bid Score (B) will be calculated for each responsive bid using the following formula, which permits a comprehensive assessment of the bid price and the technical merits of each bid:

$$B \equiv \frac{P_{low}}{P} X + \frac{T}{T_{high}} (1 - X)$$

where;

P = Evaluated Bid Price

P_{low} = the lowest of all Evaluated Bid Prices among responsive bids

T = the total Technical Score awarded to the bid

T_{high} = the Technical Score achieved by the bid that was scored highest among all responsive bids

X = weight for the Bid Price as specified below.

Total Technical score (T) is the combined weighted score of all the Technical features of each project component.

Weight of the evaluated Bid Price ("X" in the evaluated Bid Score formula) = 20%

The bid with the highest Evaluated Bid Score (B) among responsive bids shall be termed the Lowest Evaluated Bid and is eligible for Contract award, provided the Bidder was pre-qualified and/or it was found to be qualified to perform the Contract in accordance with post qualifications requirements stipulated in the Bidding Documents.

Unquote:

All Bidders shall comply with this Addendum No 01 to the Bidding Document Volume 01 of 03.
