PROCUREMENT OF THE SERVICES OF MANAGING PARTNERS TO COORDINATE OPERATIONAL ACTIVITIES OF SMART SOCIAL CIRCLES FOR CITIZEN EMPOWERMENT PROJECT

1.1 Introduction

Information and Communication technologies (ICTs) are increasingly being recognized as essential tools for development that can empower citizens, enhance skills, increase productivity, and improve governance at all levels.

Government of Sri Lanka (GoSL) aims to use ICT to foster social integration, peace, economic growth and poverty reduction. A key anticipated outcome of this is more effective, citizen centered, and transparent government through ICT enabled governance.

The SMART Social Circles program has opened new opportunities for communities living in the urban, suburban and rural areas via information technology and telecommunication, enabling them to connect with government and non-government organizations. The main aim of this social circle is to improve the wellbeing and living standards by social economic growth of communities who are becoming digitally literate.

1.2 Background

ICTA has successfully conducted a pilot project for 60 SMART Social Circles in 60 Grama Niladhary (GN) divisions in 5 districts (Matara, Badulla, Kurunegala, Polonnaruwa, Jaffna). To achieve the objectives, ICTA coordinated and conducted 5 hrs training for knowledge agents and there were 10 knowledge agents selected from each GN division. These agents were mandated to drive and promote the adoption of new technologies and social media for their respective community development. They comprised both rural based government officers and community leaders in the GN division (including the GN). ICTA through consultants developed all the necessary training materials such as handouts, presentations, manuals etc. ICTA also plans on assisting and guiding social circles continuously to use digital technologies and social media for their development. It also facilitates and promotes connecting SMART Social Circles with other online social groups.

In the pilot phase of the project, ICTA saw that there were lots of success stories and it encouraged ICTA to start second phase of the SMART Social Circle project. In this phase of the project ICTA wants to expand this initiative nationwide covering 800 Grama Niladhari Divisions. This would require an extensive undertaking on the part of ICTA and solutions for the problems faced during the pilot phase of the project

As the government apex body for the development of ICT in Sri Lanka, ICTA has already identified communities in urban, semi urban & rural as one of the main segment of the society which should be empowered with required competencies to contribute towards digitally inclusive society. To address above, ICTA has taken all necessary actions to enhance the ICT usage among the communities and build digitally empowered community.

The proposed scope of the work will consider above matters and offer practical solution to fill in the gaps. Its main role is social mobilization of ICT development strategies. Our methodology is making

people aware of these facilities, encouraging and guiding them to use those will lead to successful ICT enablement of citizens.

Finally, project impact is empowering people with practical ICT skills that can be used for their day to day activities, promote entrepreneurship, expand their income through the use of ICT technologies and to act as citizen journalists for national development. This will facilitate the development of an environment conducive to the achievement of the nation's intellectual, cultural, and social aspirations through ICT.

2.1 Overall Project Objectives:

To create an island-wide network of SMART social circles with knowledgeable, experienced & responsive staff by using social media and emerging technologies.

Specific objectives

- 4 To promote active partnership among citizens to organize, integrate and provide user-friendly on-line information and services.

▪ 2.2 Objective of this Assignment

Main objective of this assignment is to administer operational activities of the SMART Social Circle program by providing required services effectively and efficiently.

▪

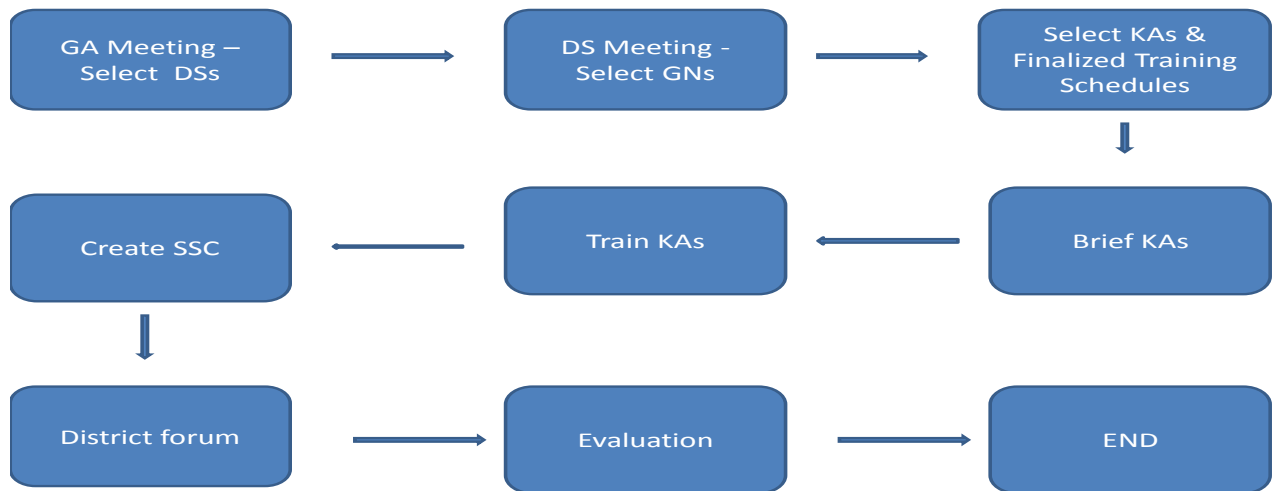

▪ 3. Scope of the Service

▪

▪ The SMART social circle initiated by ICTA intends to empower citizens through Information and Communication Technologies. Furthermore Social Media would also be promoted among targeted stakeholders, to improve their living standards which will lead to enhanced income levels and improved living conditions.

The above mentioned objectives are expected to be achieved by **Project Scope that is to create 800 SMART Social Circles in 800 Grama Niladhari (GN) divisions in all 25 districts covering entire country. (Refer Annex 1 - project coverage)**

3.1 Implementation approach

In this phase of the project, will cover all 25 districts in the country and select 100 DS divisions out of 331 due to time constrain. Each district will get number of DS divisions proportionate to the number of DS divisions available in the particular district. Allocating 800 GN divisions for each district is proportionate to the number of GN divisions in the particular district.

To successfully implement this project, divide 25 districts in to five lots (Lot 1, Lot 2, Lot 3, Lot 4, Lot 5) and each lot will have a dedicated in charge officer from ICTA and a Managing Partner to carryout activities assigned by ICTA within the lot. In charge officer coordinate all the activities with stakeholders and implement through managing partner and district coordinators. Project Manager responsible for overall project and all the members in the team should be reported to him.

After selecting GN divisions, knowledge Agents will be selected within the GN division. Thereafter, Managing Partner will carry out awareness program for knowledge agents and followed by a 2 days training session for knowledge Agents at the selected training centers. Five days after completion of the training session, SMART Social Circle will be launched with the participation of key stakeholders, other stakeholders and the community. Awareness program for KA's, training KA's and Create SSC's are the major duties of the managing partner and ICTA district Coordinators do the coordination between key stakeholders.

ICTA plans to complete this project within the timeline and ICTA will employ 25 district coordinators through ICTA to efficiently implement the project. Five managing partners will be selected by ICTA to carry out implementation phase of the project under the guidance of ICTA. During this phase we plan to get the support of various organizations including public, private and NGOs for the success of this event. These organizations will help the project at various levels according to their vision or mandate. Also, plan to get the support of young dynamic voluntary under graduates from the particular village to drive this project.
