Information and Communication Technology Agency of Sri Lanka (ICTA) is empowered to implement ICT development strategies and programmes, in both the government and private sectors, including Legal and Policy reforms in Sri Lanka. The agency functions under direct purview of the Ministry of Telecommunication and Digital Infrastructure.

The e-Revenue License (eRL) initiative is one of the key initiatives of ICTA which was launched in December, 2009 in Western Province. The eRL Solution was the first connected government service and it was also the first government transactional eService offered to the citizens. By now ICTA has successfully rolled out eRL solution in six (6) provinces and ICTA is planning to complete eRL rollout into all provinces by end of 2016.

One of the main advantage of Centralized eRevenue License Solution is that ability to identify the vehicles that have not renewed the license on time regardless of owner transfers between provinces. The Provincial Councils are considered this as the “Loss Revenue” and the report need to be generated and submitted to the Finance Divisions of the respective Provincial Councils quarterly.

Currently the loss revenue report is generated by running different scripts and need to be improved. Due to the increasing requests by multiple provinces for the generation of loss revenue report process needs to be streamlined.

Hence, ICTA intends to obtain the service of a consultant (individual) to generate the eRL Loss Revenue Report and to Implement Critical Enhancements.
