REQUEST FOR EXPRESSIONS OF INTEREST

Assignment Title: Procuring a Consultancy Firm for Revamping the Government Information Center (GIC) Portal and the Development of the GIC Mobile Application

Assignment Number: ICTA/GOSL/CON/QCBS/2017/25

Information and Communication Technology Agency of Sri Lanka (ICTA) is the apex government agency for Information and Communication Technology (ICT) in Sri Lanka which has been mandated to take all necessary measures to implement the Government's Policy and Action Plan in relation to ICT.

The GIC portal contains the information of more than 300 government organizations which are broadly categorized into government ministries, departments, statutory bodies, government banks, government hospitals, provincial councils, district & divisional secretariats and local government authorities. It further provides information related to services provided through the aforementioned government organizations with an organization level categorization.

Moving in line with the observations over the GIC portal usage statistics, it has been recognized that, the current information arrangement approach of the GIC web portal is more organization and service centric, where the actual call from the citizens is for an intention based approach, that the service information could be captured in no-time with a great level of accuracy and satisfaction.

While resolving the downsides of the existing setup and keeping the country in line with the International information sharing standards, ICTA intends to carry out revamping of the Government Information Center Portal and the development of the Government Information Center Mobile Application, with a centralized and steady information access framework, facilitated via Application Programming Interfaces (APIs).

ICTA now invites Expressions of Interest (EOIs) from firms that are willing to undertake the above assignment.
