

Information and Communication Technology Agency of Sri Lanka

## **Expressions of Interest**

### **Field Support Engineers (Information Technology) for Implementation, Support and Maintenance of Hospital Health Information Management System (HHIMS)**

**ICTA/GOSL/CON/IC/2017/41**

Information and Communication Technology Agency of Sri Lanka (ICTA) the apex ICT organization of the government is currently driving cutting edge solutions into the government sector. ICTA has been mandated to implement solutions that will enable the government of Sri Lanka to achieve its aim of providing all of its services through ICT to citizens.

ICTA has initiated the implementation of Digital Health Project in close collaboration with the Ministry of Health, Nutrition and Indigenous Medicine to strengthen the electronic health record systems with the aim of improving quality and efficiency of the government health system. The project targets to implement electronic health record systems in 300 key government hospitals throughout the country during the period from 2016 to 2019.

ICTA intends to obtain the services of experienced IT Professionals for implementation, support and maintenance of Hospital Health Information Management System and has decided to invite Expressions of Interest from qualified and eligible individual experts in this area of work who can take up the above assignment.

The individual consultants are required to provide services as per the detailed scope of the services outlined in the Terms of Reference and Format of CV which is available for reference on website <https://www.icta.lk/procurement/>

Individual Consultants should have the following minimum qualifications and experience.

- Bachelor's Degree in IT or related field from a recognized university or any other equivalent qualifications
- Minimum of 2 years' relevant work experience
- Software development experience in PHP
- Extensive knowledge on Apache and Code igniter
- Hands on experience on Linux operating systems
- Experience in SOA based projects and related technologies
- Hands on experience in issue tracking, related tools
- Professional client relationship skills
- Ability to learn and apply new skills and concepts quickly

If you are interested in the above consultancy assignment, please respond to this request by submitting the following information:

- 1) Curriculum Vitae - CV
- 2) Covering letter highlighting relevant experience, expertise etc in the respective areas.

Individual Consultant will be selected in accordance with the procedures set out in the Government Guidelines: Selection & Employment of Consultants following Individual Consultants selection method. All interested parties are informed that all documentations shall be in English Language.

You may forward your response electronically to; [procurement@icta.lk](mailto:procurement@icta.lk) or by hand delivery or by post to Director – Procurement, Information and Communication Technology Agency of Sri Lanka, 160/24, (2<sup>nd</sup> floor), Kirimandala Mawatha, Colombo 05 to be received at or before **1500 hrs on November 15, 2017**. Envelope containing your response should be marked “**Field Support Engineers (Information Technology) for Implementation, Support and Maintenance of Hospital Health Information Management System (HHIMS) - ICTA/GOSL/CON/IC/2017/41**”
