Section V. Schedule of Requirements

- 1. List of Related Services**
- 2. Technical Specifications**

List of Related Services

Redhat Openstack Premium Support and Subscription (Expansion) – 3 years

1. Introduction

Aligned with the national policy of 'Digitization of Economy', ICT Agency of Sri Lanka (ICTA) implements several initiatives across the government to increase the efficiency of the government processes and to provide government services effectively and efficiently. In this context, development and improvement of digital infrastructure has been identified as a key area.

The LGC 2.0 is the central and common government cloud, and it is expected that all types of government applications will be hosted in LGC 2.0. This approach will minimize or eliminate purchasing and maintaining of servers and/or data centers by government organizations which could be time consuming, ineffective, and insecure. The objective is to eliminate all constraints and limitations to the government organizations for adopting to cloud computing strategy and thereby increase ICT usage to enhance the effectiveness and efficiency of government processes. Moreover, LGC 2.0 will support hybrid cloud model to obtain vast amount of public cloud services.

Scalability, high availability, efficiency, flexibility, usability and most importantly support for the modern web-scale application deployment on LGC 2.0 have been identified as key features for LGC 2.0. The primary objective of this procurement item is obtaining Redhat Openstack Premium support and subscription to fulfill the above requirements.

2. Scope of Services

The scope of the Support Services should include following key areas (but not limited to);

- Best practices for operating the Supported Cluster.
- Identifying, diagnosing and fixing errors in Supported Software.
- Tools and techniques for monitoring the Supported Cluster.
- Preventing and recovering from failures and troubleshooting.
- Problem isolation and diagnosis of errors in the Supported Software.
- Patches and workarounds to fix bugs in the Supported Software.

2.1 List of Related Services - Changed as follows by inserting item no 2

Item No	Description of Goods	Quantity Units	Delivery and Installation	Related Services
1	Red Hat OpenStack Platform with Smart Management, Premium (2-sockets)	16	Subscription activation should be done within two weeks after Signing the contract.	Supply, Delivery, Installation, Commissioning and Maintenance
